

# Data Analyst – Marketing Automation Platforms

Job ID

REQ-10073130

Mar 15, 2026

LOC\_IN

## About the Role

Location: Hyderabad #Hybrid

### Key Responsibilities

- Deliver insights that drive MarTech Product teams' decisions on strategy and product development by functioning as independent contributor to drive strategy through execution for MarTech products.
- Strong understanding of multiple data sources including Web (Web SDK), CRM, MDM, and enterprise data platforms (e.g., Data Core / Snowflake) to enable unified customer views.
- Hands-on expertise in Data Cloud for data ingestion, identity resolution, calculated insights, and segmentation.
- Deep functional knowledge of Marketing Cloud to activate audiences through journeys, triggered communications, and omnichannel orchestration.
- Data Modeling & Warehousing: Design and implement logical/physical data models, schemas, and staging areas in Snowflake.
- Schema Design: Develop and maintain dimensional models (Star/Snowflake Schemas) and data marts to support BI and reporting, ensuring data accuracy and consistency.
- Partner with business leaders to identify, analyze, and solve key challenges, leveraging your expertise to advise on strategic objectives and product roadmap.
- Develop a deep understanding of the marketing technology ecosystem, gain clarity on data flow, and perform data readiness assessment with countries to activate MarTech products effectively.
- Design and implement measurement framework that tracks key metrics and performance trends and provide actionable insights into product leadership.
- Create visualizations, presentations, and executive summaries that communicate findings to internal stakeholders and executives.
- Translate data insights into actions and recommendations that will drive product adoption, customer satisfaction, and investment decisions.

### Soft Skills:

- Joint Value Creation: Ability to collaborate effectively to create value for all stakeholders.
- Dynamic, results-oriented team player who contributes positively to team success.
- Exhibit organizational agility, creativity, strategic & strong analytical thinking.
- Excellent presentation skills and storyboarding skills.
- Excellent interpersonal and communication skills.
- Ability to operate effectively in an international matrix environment.
- Strong stakeholder management skills.

### Essential Requirements

- Bachelor's / master's degree in business or technology / engineering.
- Overall, around 5 years of experience in Data Analytics in Salesforce Marketing Cloud and Salesforce Data Cloud products
- Understanding complexity of integrated working in a matrix and geographically dispersed environment.
- Proficient in analyzing complex data set using MS Excel & SQL, knowledge of
- Skilled in presenting data stories through slides, charts, and dashboards, and effectively articulating the business

impact of insights.

- Plan projects, set schedules, coordinate resources across product, data, and engineering teams, and ensure end-to-end completion, meeting timelines and quality expectations.
- Passion for keeping up to date with the latest in marketing technology and digital marketing trends.
