About the Role

Major Accountabilities:

- Manage all analytical activities in the Nitrosamine laboratory in compliance with GxP and Novartis procedures.
- Execute and document method development, validation, and transfer studies in line with approved SOPs and workflows.
- Ensure accurate, complete, and compliant documentation (e.g. worksheets, reports, license-related documents) following data integrity principles (ALCOA+).
- Handle deviations, OOX, and unexpected events according to defined procedures and escalation processes.
- Maintain laboratory order, equipment usage, and full compliance with HSE requirements.
- Support audit readiness, pre-audit preparations, and follow-up actions.
- Continuously review and update departmental procedures and contribute to team responsibilities and continuous improvement initiatives.

Essential Requirements:

- Degree in Chemistry, Chemical Engineering, Pharmacy, or a related field
- 4+ years of experience in analytical development or QC within the pharmaceutical industry
- Hands-on expertise with LC-MS/MS and GC-MS/MS (nitrosamines experience is a strong plus)
- Solid understanding of mass spectrometry, GLP/GMP, and regulatory requirements
- Strong communication skills and a continuous learning mindset
