About the Role

Key Responsibilities

- Coordinate and monitor warehouse and distribution operations to ensure continuity, compliance, and service performance.
- Act as the main escalation point for logistics partners, procurement, and internal stakeholders.
- Track and report warehouse, distribution, and customer service performance indicators on a monthly basis.
- Support daily operational decisions across warehousing, transportation, inventory, and customer service activities.
- Lead regular performance reviews with third-party providers and follow up on improvement actions.
- Ensure services are delivered in line with contractual agreements and agreed service levels.
- Contribute to continuous improvement initiatives that reduce risk and improve operational efficiency.
- Support digital transformation efforts that simplify processes and improve stakeholder experience.
- Ensure accurate documentation and compliance with quality, regulatory, and corporate guidelines.

Essential Requirements

- University degree in engineering, logistics, or logistics administration.
- Professional experience in operations management, logistics, supply chain, customer service, or process control.
- At least one to two years of experience in logistics or supply chain within a pharmaceutical or regulated environment.
- Working knowledge of quality and compliance requirements, including Good Practice standards, applied in daily operations.
- Fluency in Spanish and working proficiency in English for day-to-day coordination and reporting.
