About the Role

Key Responsibilities:

This leader will impact the organization by playing a critical role in the following activities:

Portfolio & Lifecycle Strategy

- Elevate Established Medicines as a strategic enterprise portfolio, driving industry-leading lifecycle management and value optimization
- Position Established Medicines as the strategic thought partner for LoE planning across the US portfolio
- Design and lead portfolio-level frameworks and governance to transition assets into the Established Medicines portfolio
- Influence portfolio performance and financial outcomes through strategic prioritization and business case development

Innovation & Alternative Commercialization Models

- Evaluate, pilot, and scale alternative commercialization and operating models to maximize value of late-lifecycle assets
- Incubate and develop new, cost-effective capabilities tailored to portfolio needs
- Lead high-impact innovation initiatives across the Established Medicines portfolio and for select products

Enterprise Leadership & Transformation

- Lead complex, cross-functional strategic initiatives requiring alignment across multiple senior stakeholders
- Champion the evolution of Established Medicines into an AI-enabled organization, embedding technology into workflows through pilots and best-practice scaling
- Serve as a role model for Novartis' leadership behaviors, fostering curiosity, courage, and inclusive collaboration

Essential Requirements:

Education (minimum/desirable):

Bachelor's degree required; MBA or advanced degree strongly preferred

Required:

- US commercial experience required; Demonstrated, practical use of AI and digital tools in daily workflows
- 8+ years in pharmaceutical, biotech, healthcare, or healthcare consulting industry inclusive of at least 2 distinct cross-functional roles
- 2+ years leading integrated product or portfolio strategy requiring global-local alignment
- 4+ years leading complex, cross-functional initiatives in a matrixed organization; Strong customer- and patient-centric mindset
- Strong business acumen, excellent strategic thinking and effective problem solving; Strong executive presence with the ability to influence senior leadership
- Track record of exceptional performance and execution that drives results in a cross-functional matrix through ability to influence without formal authority; Demonstrated ability to operate effectively amid ambiguity and complexity

- Strong business acumen with excellent strategic thinking and problem-solving skills
- Proven track record of exceptional execution and delivery of results Exceptional executive communication, storytelling, and stakeholder-management skills

Desirable Requirements:

- Management consulting experience
- Experience across US market dynamics, product launch, and lifestyle stages, or General Management outside the US

The salary for this position is expected to range between \$185,500.00 and \$344,500.00 per year.

The final salary offered is determined based on factors like, but not limited to, relevant skills and experience, and upon joining Novartis will be reviewed periodically. Novartis may change the published salary range based on company and market factors.

Your compensation will include a performance-based cash incentive and, depending on the level of the role, eligibility to be considered for annual equity awards.

US-based eligible employees will receive a comprehensive benefits package that includes health, life and disability benefits, a 401(k) with company contribution and match, and a variety of other benefits. In addition, employees are eligible for a generous time off package including vacation, personal days, holidays and other leaves.
