

# Analytics & Insights Manager

Job ID

REQ-10076616

May 06, 2026

LOC\_AU

## About the Role

Key Responsibilities :-

- Strong understanding of specific therapeutic area data needs.
- Supervise and analyse performance data and market trends to find opportunities to improve business performance.
- Using predictive and prescriptive analytical models to generate actionable insights and recommendations, tailored to different key roles in the organization, help them decide on the best actions to take.
- Support SFE/Sales Operations function (ie. Execution and Performance reporting platforms and analytics, targeting/segmentation, incentive programs and prioritization)
- In collaboration with BE&E partners, measure & assess efficiency of marketing & cross-channel initiatives, consolidating these into actionable recommendations.
- Proactively identify business questions/needs and propose analytical solutions using primary and secondary research.
- Stay current on external and internal guidelines for data management, to understand and fully align with data governance and compliance requirements.
- Strong collaboration and partnerships with teams located in multiple geographies.

Essential Requirements: -

- 5-10 years' experience or equivalent achievement
- Stakeholder management and ability to challenge thoughts and ideas across all levels of leadership.
- Strong business partnership orientation
- Data synthesis and storytelling
- Knowledge of key concepts and practices in data governance and data management
- Hands-on skills in data analytics including the ability to build and maintain effective dashboards and conduct exploratory analyses.
- Excellent communication and project management Skills
- Business Intelligence tools expertise (ie. PowerBI, Tableau, QlikSense, matplotlib, etc)
