About the Role

Location: Hyderabad #Hybrid

Key Responsibilities

- Lead and develop a team of associates focused on vendor and data landscape evaluation and platform integration
- Serve as the operational bridge between and NOCC Hyderabad data acceleration activities and the US data strategy team
- Oversee real-world data source assessments across claims, EHR, patient registries, and emerging AI based data platforms
- Implementation of real-world data platforms and tooling (data42) within NOCC Hyderabad teams workflows
- Collaborate with the scientific data analytics and research analytics managers in NOCC Hyderabad to align data infrastructure with study execution needs
- Contribute to the RWE function's internal capability scaling goals
- Represent the NOCC Hyderabad RWE acceleration workstream in cross-functional planning discussions with the US RWE associates
- Ensure data access governance, feasibility documentation, and vendor evaluation outputs meet Novartis quality standards

Essential Requirements:

- Comprehensive knowledge of real-world data sources.
- Understanding of regulatory and compliance requirements, specifically FDA guidance on observational studies.
- Exposure to oncology, cardiorenal metabolic, nephrology, immunology, and neuroscience therapeutic areas.
- Familiarity with AI-enabled real-world evidence and real-world data tools. Prior experience managing teams in matrixed team environment.
- Ability to develop and motivate specialized team in a newly created team with limited precedent; Creates clarity and direction in an ambiguous environment.
- Translate strategy into structured repeatable workflows; Builds processes from scratch and holds team to delivery standards.
- Comfortable across both data landscape and platform/tooling tracks; credible with both scientific and technical team members.
- Builds effective working relationships across geographies and functions; Navigates matrix reporting structures effectively.

Desirable Requirement :

- Bachelor's degree in a field such as epidemiology, biostatistics, statistics, bioinformatics, economics or equivalent and 10+ years conducting research in the pharma industry, contract research organization, or academic institute; or experience in a closely related discipline within the pharma industry (e.g., clinical research, statistics, epidemiology, pricing).
- Master's degree in a field such as epidemiology, biostatistics, statistics, bioinformatics, economics or similar. And 7+ years of experience conducting research in the pharma industry, contract research organization, or academic institute; or experience in a closely related discipline within the pharma industry.

Commitment to Diversity & Inclusion

We are committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.

Accessibility and accommodation

Novartis is committed to working with and providing reasonable accommodation to individuals with disabilities. If, because of a medical condition or disability, you need a reasonable accommodation for any part of the recruitment process, or in order to perform the essential functions of a position, please send an e-mail to diversityandincl.india@novartis.com and let us know the nature of your request and your contact information. Please include the job requisition number in your message.

Role Requirements
