LOC_CL

About the Role

#LI-Remote

Location: Santiago, Chile

This role is based in Chile. Novartis is unable to offer relocation support for this role: please only apply if this location is accessible for you.

Key responsibilities:

- Build and maintain strong, trust-based relationships with key HCPs and medical experts within Oncology
- Provide high-quality scientific exchange, translating complex clinical data into clear, impactful insights
- Support market readiness and successful adoption of key therapies through scientific engagement
- Gather, synthesize, and communicate actionable insights from the field to internal stakeholders
- Collaborate cross-functionally with Medical, Commercial, and other teams to ensure aligned execution
- Identify and engage key opinion leaders (KOLs) to support scientific leadership and strategy
- Deliver presentations and training on clinical and scientific data to internal and external stakeholders
- Ensure all activities are conducted in compliance with Novartis policies and ethical standards

Essential Requirements:

- Proven experience in Oncology (mandatory)
- Strong scientific background with ability to interpret and communicate clinical data
- Experience in medical affairs, MSL, or related scientific field roles
- Strong stakeholder engagement and influencing skills
- Ability to collect, analyze, and translate insights into actionable recommendations
- Excellent communication skills with ability to simplify complex scientific concepts
- Strong collaboration and cross-functional mindset
- Fluent in English

Desirable Requirements:

- Experience working with nuclear medicine / radioligand therapies
- Previous experience engaging with top-tier oncology experts in Chile

Why Novartis?

At Novartis, our purpose is to reimagine medicine to improve and extend people's lives. We are driven by our commitment to innovation, scientific excellence, and meaningful impact for patients worldwide.

Commitment to Diversity and Inclusion

Novartis is committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.

Role Requirements

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients' lives. Ready to create a brighter future together? <https://www.novartis.com/about/strategy/people-and-culture>

Benefits and Rewards: Learn about all the ways we'll help you thrive personally and professionally.
