About the Role

Major accountabilities:

- Translate business priorities into clear analytics questions and actionable insight plans.
- Lead performance analytics, dashboards, and reporting to support commercial, access, and medical decision-making.
- Manage and optimize complex data sets from multiple internal and external sources to create a trusted view of business performance.
- Generate market, customer, and competitive insights to identify opportunities, risks, and strategic actions.
- Partner cross-functionally with commercial, field excellence, finance, digital, and medical teams to deliver high-impact analytics solutions.
- Support forecasting, market modeling, and planning by providing robust data assumptions and insight-driven input.
- Drive adoption of digital, AI, and GenAI-enabled analytics solutions that improve speed, quality, and business impact.

Requirements:

- 8+ years of experience in integrated insights, business analytics, market research, or commercial strategy within pharmaceuticals, biotech, healthcare, FMCG, CRO, or similarly data-rich industries.
- Strong experience working with multiple data sources and translating data into clear business recommendations.
- Hands-on expertise in analytics and reporting tools such as Power BI, SQL, or similar data management platforms.
- Strong commercial acumen with the ability to connect analytics to business performance and growth opportunities.
- Excellent stakeholder management, communication, and data storytelling skills.
- Experience in pharma, IQVIA data, CRM systems, or therapeutic area insights will be an advantage.
