About the Role

Key Responsibilities:

- Lead qualification, validation, cleaning validation, and risk management activities across manufacturing systems.
- Support commissioning, testing, and qualification of equipment, utilities, and manufacturing systems.
- Analyze process and system data to troubleshoot issues and drive continuous improvement.
- Translate manufacturing process requirements into compliant system configurations and execution workflows.
- Maintain and optimize electronic batch records, recipes, master batch records, and bill of materials structures.
- Author and maintain GxP documentation while ensuring data integrity, traceability, and audit readiness.
- Support deviations, corrective and preventive actions, change controls, and lifecycle management activities.
- Deliver training, subject matter expertise, and knowledge transfer across manufacturing and operational teams.

Essential Requirements:

- Bachelor's or Master's degree in Engineering, Life Sciences, Biotechnology, Pharmacy, or a related field.
- Fluency in English.
- Proven experience supporting pharmaceutical or biotechnology manufacturing processes in a GxP-regulated environment.
- Strong knowledge of qualification, validation, data integrity, risk management, and regulatory compliance requirements.
- Hands-on experience with Manufacturing Execution Systems, electronic batch records, recipes, and manufacturing master data.
- Ability to investigate deviations, perform root cause analysis, and implement effective corrective actions.
- Strong collaboration and communication skills with the ability to work across manufacturing, quality, information technology, and engineering teams.

Desirable Requirements:

- German language skills and experience supporting regulatory inspections within pharmaceutical or biotechnology manufacturing environments.

Benefits & Rewards:

At Novartis, we're committed to reimagining medicine together - and rewarding the people who make it happen.

Expected Annual Base Salary Range for role:

- 74.060,00 - 137.540,00 RON

The base salary offered is determined based on gender-neutral objectives, such as relevant skills, competencies and experience in accordance with the Novartis pay setting policy and upon joining Novartis will be reviewed periodically.

In addition to your base salary, you may be eligible for a performance-based bonus depending on certain performance parameters.

The rewards of being part of our team go far beyond base pay and incentives. We also offer a variety of competitive benefits in kind to help you thrive personally and professionally, such as insurance plans, retirement plans, wellbeing resources and global recognition programs. In addition, we provide flexible and hybrid working options, where possible, and minimum 14 weeks paid parental leave.

Pay equity is a fundamental principle of our employment policy and reflects our commitment to create a diverse, equitable and inclusive environment that treats all employees with dignity and respect, as outlined in our Code of Ethics.
