About the Role

Major Accountabilities

- Develop, maintain, and continuously improve demand forecasts for assigned brands and product portfolios.
- Coordinate with Commercial, Marketing, Finance, Regulatory, and Supply Chain teams to incorporate business assumptions, launches, promotions, and market trends into the demand plan.
- Ensure adequate inventory levels while balancing service targets, inventory objectives, and working capital requirements.
- Monitor forecast accuracy, inventory performance, stock availability, and supply risks, leading corrective actions when needed.
- Support and participate in S&OP / IBP processes, providing demand insights and business recommendations.
- Collaborate with regional and global planning teams to align demand requirements with supply capabilities and manage escalations.
- Ensure planning master data and system parameters are maintained and optimized to support planning effectiveness.
- Generate and analyze planning KPIs, providing insights and recommendations to support decision making.
- Drive continuous improvement initiatives and support implementation of planning tools, systems, and best practices.
- Act as a key business partner across functions to ensure alignment and excellence in execution.

Essential requirements:

- Bachelor's Degree in Industrial Engineering, Business Administration, Supply Chain, Economics, Pharmacy, or related discipline.
- 3+ years of experience in Demand Planning, Supply Planning, S&OP, Supply Chain, or Operations Planning.
- Experience within pharmaceutical, healthcare, FMCG, or highly regulated industries.
- Advanced IT skills, including knowledge of ERP and planning systems (SAP, Kinaxis, IBP, APO, or similar) and Excel/reporting tools.
- Fluent English and Spanish.
